# THE JEWELL NURSERY COMPANY

---

---

LAKE CITY, MINNESOTA, U. S. A.

## MINNESOTA AGRICULTURAL EXPERIMENT STATION

OFFICE OF STATE ENTOMOLOGIST

ST. ANTHONY PARK, July 13th, 1912.

## CERTIFICATE OF INSPECTION

*This is to certify that the stock at the nursery and premises of Jewell Nursery Company of Lake City, Minn., J. M. Underwood, Proprietor, has been carefully examined in compliance with the law and that it is apparently free from dangerously injurious insects and contagious diseases.*

*This certificate is good until June 20th, 1913, unless revoked, and covers only stock actually on the premises when examined.*

*F. L. Washburn, State Entomologist.*

## To the Trade:

We present our semi-annual list of nursery stock—all strictly Minnesota grown—for the coming season's shipment. Our stock is all well-grown and well-graded, and has a reputation for root development.

**Specialties** Native Plums. Hardy varieties of Apples. Hardy Ornamental Trees, Shrubs, and Herbaceous Plants. In these we grow nothing but the strictly hardy kinds.

**Guarantee of Genuineness** While we exercise the greatest care in keeping stock true to label and guarantee the purchaser true stock, we are in no case liable for a sum greater than the purchase price of any stock proving untrue.

## Terms of Sale

**Prices** quoted are for stock on our grounds.

**Boxes and Bales** Boxes, 36 inch heads, \$3.50, 34 inch \$3.00, 30 inch \$2.50, 28 inch \$2.25, 26 inch \$2.00, 24 inch \$1.75, 22 inch \$1.50, 20 inch \$1.35, 18 inch \$1.25, 16 inch \$1.00. Bales 25c to \$2.00, according to size. Root boxes  $\frac{2}{3}$  rate given for standard boxes.

**Shipping Directions** should always be explicit to avoid unnecessary delays or errors.

**Substitution** Varieties sold out are withdrawn without notice. In ordering, please state whether judicious substituting will be permitted in case we are short of any variety wanted.

**Car Lot Shipments** Special prices will be made on car load lots, if furnished with estimate of stock wanted.

**Claims** of any nature (except for genuineness) must be made within six days after stock is received.

**Quantity** 500 at 1000 rates; 50 at 100 rates; 5 at 10 rates. Less than 5, figure 20% added to 10 rate. When 100 rate is lowest given, for less than 50, figure 20% added to 100 rate.

## Apple—3 year

Our apple stock in this class is all grown three years, smooth, well rooted and with well balanced tops. Our largest plantings are of the strictly Northern varieties of this list. The semi-hardy varieties we grow for our trade in the Pacific country and other milder sections. (See our one year list below.)

	Code	100	1000
First class 11/16 inch and up, 5 to 6 ft. ....	Fable	\$ 15 00	\$ 120 00
First class 9/16 to 11/16 inch, 4 to 5 ft. ....	Fabric	12 00	100 00
First class 7/16 to 9/16 inch, 3 to 4 ft. branched.	Facade	6 00	50 00

Grundy	Patten's Greening	*Wolf River
Hibernal	Peerless	*Yellow Transparent
Iowa Beauty	Peter	York Imperial
*Jewell's Winter	Pewaukee	

Varieties preceded by a \* will be booked only in such proportion in assortment as our stock will permit. If furnished alone, \$20.00 per thousand additional.

## Crabs and Hybrids—3 year

Owing to our northern location, we have for many years made a specialty of this line of stock. Although our surplus is not large this season we are offering good trees.

	Code	100	1000
First class 11/16 inch and up, 5 to 6 ft. ....	Falcon	\$ 15 00	\$ 120 00

Alaska	Hiller	Sweet Orange
Beech's Sweet	Hyslop	Transcendent
Dartt	Lyman's Prolific	Virginia
Early Strawberry	Minnesota	Whitney
Faribault	Picket's Prolific	
Florence	Siberian	

## Apple—1 year

For the commercial orchard trade we offer a select line of one year old grafted apple trees in the leading varieties. A good many of these varieties are two year cut-backs, consequently have a strong root development and good straight one year tops. Following are the varieties, nearly all of them the best there is in apple. They are being graded now (January) and we will have to offer in some of the stronger growing kinds a nice 3-4 ft. grade, others in 18-24 in. and 2-3 ft. Samples sent on request.

Black Ben Davis	McIntosh	University
Delicious	Newton Pippin	Wagener
Gano	Rome Beauty	Winesap
Jonathan	Spitzenberg	Winter Banana

Nearly all dug and in our cellars. Will sell cheap. Prices on application.

## Plum—on native plum

The soil of the upper Mississippi valley is peculiarly well adapted to the propagation of the plum, as those nurserymen who have used our plum stock will agree. It is for that reason we have specialized for many years in growing plum trees for the trade. The root development secured on our soil is especially fine, and by careful trimming and tying we produce an exceptionally smooth and symmetrical tree.

While the bulk of our plum planting is in the Americana varieties, we also grow an assortment of the leading European and Japanese plums.

## Compass Cherry-Plum

### 3 Year—On native plum roots

This famous hybrid does not diminish in its popularity as a hardy tree fruit for the extreme north. We have propagated it largely for the nurserymen whose sales reach into the north country.

PLEASE NOTE: all of our Compass are grown on native plum. None on Peach.

	Code	100	1000

## Currants

Our soil at Lake City is unsurpassed for the propagation of currants, giving a splendid root and strong top. At two years almost the entire digging is No. 1 stock. A sample shipment will convince you that we can supply a line of currant stock above the average. The No. 2 will make good lining-out stock.

## Gooseberries

Special attention is called to our stock of CARRIE gooseberry, which we believe, all things considered, is one of the best varieties for northern culture that has ever been put on the market. It is vigorous, hardy and very productive. It has a very thin skin and yet is firm and a good shipper. Free from mildew entirely. Far more prolific and successful in this section than other varieties.

# Deciduous Trees

## Shade and Ornamental

The same soil conditions—porosity and ease of cultivation—which give us exceptionally fine root development, is equally operative in the production of shade and ornamental stock in this region.

Our careful and constant attention to pruning insures a uniformity and symmetry which make our street trees popular with all nurserymen and planters in general who have used them.

Elm, American White, 5 to 6 ft.....	Latitude	1 50	12 00

We have over 50 acres in Elm trees of the above sizes—probably the largest stock in the country. They are all grown in open rows, with lots of light and room, and have been trimmed and trained for street planting, smooth, uniform, even-headed. A sample car load will convince you our Elm are “as good as the best and—better than the rest.”

## Coniferous Evergreens—Transplanted

All evergreens offered are grown in rows—not in beds—with ample room for thoro cultivation. The result is a very fine root system which is the greatly desired feature of an evergreen. Strong and shapely tops.

## Ornamental Shrubs

For the past twenty-five years we have given special attention to the growing of shrubs for the nursery trade in the hardy northern varieties, and we are now in a position to supply in large quantities.

We usually have a few blocks of extra heavy shrubs each season—the kind required for immediate effect. If interested in this line, write us, stating what varieties you want.

## Roses

### Field Grown, Own Root Stock

At Lake City we have an exceptionally fine location and soil for the propagation of roses. Our propagator, Mr. C. G. Nordine, has made a specialty of growing roses the past fifteen years and the nurserymen and dealers who have handled our product will agree that it is unsurpassed.

The great superiority of own-root roses for northern culture leads us to grow by that method all but the weak rooting varieties.

### Tree Roses—Our Specialty

Red, Pink, White and Weeping. Not on tender imported roots, but budded on hardy native wild rose stock which makes them more valuable for northern planting.
